Namakkal, Tamil Nadu - 637208

PROFESSIONAL SUMMARY

Results-driven Computer Science Engineering student and Trainee Engineer with 6+ months of hands-on experience in full-stack development, .NET APIs, and cloud deployment. Proven track record of independently delivering production-ready applications with hardware-software integration. Expertise in ASP.NET Core, Angular, Flutter, Azure, and Firebase. Successfully published mobile applications on Google Play Store and deployed scalable web platforms. Strong foundation in software engineering principles, SOLID design patterns, and agile development methodologies.

TECHNICAL SKILLS

Programming Languages: C, C#, JavaScript, TypeScript, SQL, HTML5, CSS3

Backend Development: .NET Core, ASP.NET Web API, Entity Framework Core, LINQ, RESTful APIs

Frontend Development: Angular 12+, Flutter, Bootstrap, Responsive Web Design, Single Page Applications (SPA)

Database Management: Microsoft SQL Server, Azure SQL Database, Firebase Realtime Database, Database Design

Cloud & DevOps: Microsoft Azure, Azure App Services, Firebase, CI/CD, Git, GitHub, Bitbucket

AI & Integration: Azure OpenAI, ChatGPT API, Firebase Gemini AI, Claude API, Razorpay Payment Gateway

Tools & Methodologies: Visual Studio, VS Code, Postman, n8n Workflow Automation, Agile, SOLID Principles, Design Patterns

PROFESSIONAL EXPERIENCE

Trainee Engineer

Nallas Corporation (Software Solutions Pvt. Ltd.)

- Developed and maintained secure, scalable RESTful APIs using ASP.NET Core and Entity Framework Core
- Implemented Angular components and services to enhance UI/UX, improving user engagement by implementing responsive design patterns
- Collaborated with cross-functional teams using Agile methodologies to deliver high-quality software solutions
- Performed API testing using Postman and conducted code reviews to ensure code quality and adherence to best practices
- Optimized database queries using LINQ and SQL Server, reducing response times significantly

Full Stack Developer Intern

Solar Secure Solutions

- Developed responsive web applications using HTML5, CSS3, JavaScript, and modern frontend frameworks
- Built dynamic portfolio websites and web pages, implementing best practices for web development
- Gained hands-on experience in both frontend and backend technologies, database management, and version control
- Created professional client portfolios showcasing cybersecurity expertise and web development skills

KEY PROJECTS

Bago AI Fit - Nutritional Platform (Web & Mobile)

Technologies: Angular, Flutter, .NET Core, Azure SQL, Firebase, Azure OpenAI, Razorpay

- Independently developed and deployed a complete nutritional platform with both web and mobile applications
- Successfully published mobile application on Google Play Store, achieving real-world user adoption
- Implemented Firebase Authentication with Google Sign-In for secure, seamless cross-platform user access
- Integrated Azure ChatGPT and Firebase Gemini AI for AI-powered nutritional recommendations and analysis
- Developed secure payment processing using Razorpay gateway for subscription management
- Built responsive Angular web frontend and Flutter mobile app with real-time Firebase synchronization
- Designed scalable .NET Core backend APIs with Azure SQL Database for reliable data persistence
- Managed complete project lifecycle from requirements gathering to production deployment

Vendor Zone - IT Asset Management Platform

Technologies: ASP.NET Core, Angular, SQL Server, Entity Framework Core

- Designed and developed enterprise-grade vendor management system for tracking IT assets including laptops, air conditioners, and purchase records
- Built comprehensive admin dashboards for managing vendors, products, payments, and approval workflows
- Applied SOLID principles and design patterns (Repository, Dependency Injection) to enhance code quality, scalability, and maintainability
- Integrated Angular SPA frontend with .NET Core backend APIs, enabling seamless data flow and responsive UI
- Improved operational efficiency by 40% through automation of vendor and purchase tracking processes
- Implemented role-based access control (RBAC) and secure authentication mechanisms

EDUCATION

Bachelor of Engineering in Computer Science 08/2022 - 06/2025

Dr. N.G.P. Institute of Technology, Coimbatore, India

Diploma in Electronics and Communication Engineering 08/2020 - 08/2022

Paavai Polytechnic College, Namakkal, India

CERTIFICATIONS

- .NET Fundamentals - LinkedIn Learning
- Learning C# - LinkedIn Learning
- Full Stack Developer Internship - Solar Secure Solutions
- Nxtway 4.0 Technology Workshop - Project-based Learning

ADDITIONAL INFORMATION

Languages: Tamil (Native), English (Professional Proficiency)

Publications: Created professional portfolio for cybersecurity expert showcasing penetration testing and bug hunting expertise

Key Strengths: Full-stack development, Cloud deployment, AI integration, Independent project delivery, Problem-solving
